engagement**

What is omnichannel vs. unified commerce?

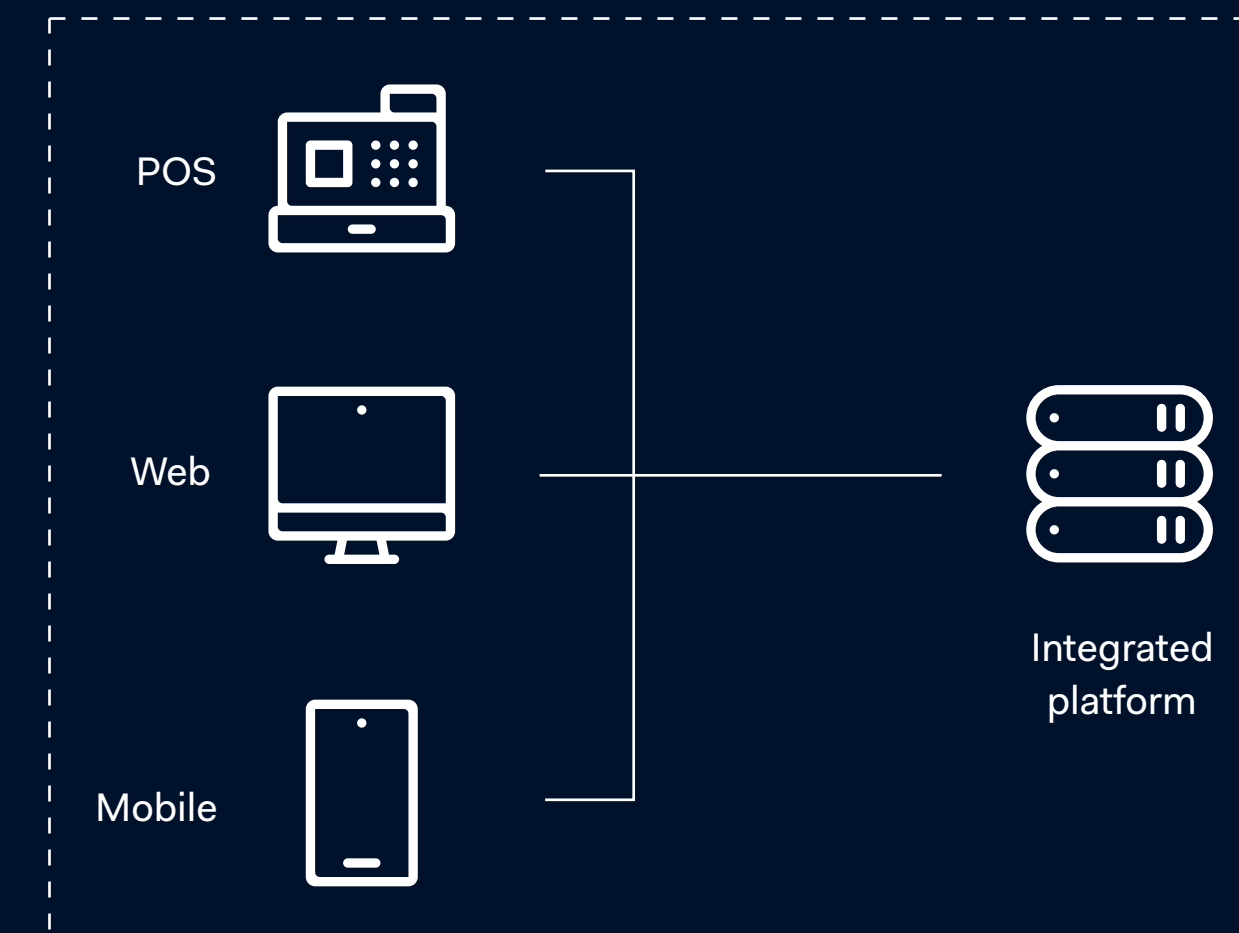

Omnichannel

Brick & mortar only

Unified commerce

**Get meaningful customer insights
with cross-channel data**

Customer insights

Make better business decisions with actionable insights

Understand customer origin How does it impact spending behavior?

Build stronger customer loyalty How should I adapt my strategy for new and returning customers?

Evaluate omnichannel customers Are they worth more than single-channel customers?

Customer insights

How do you recognize customers across channels?

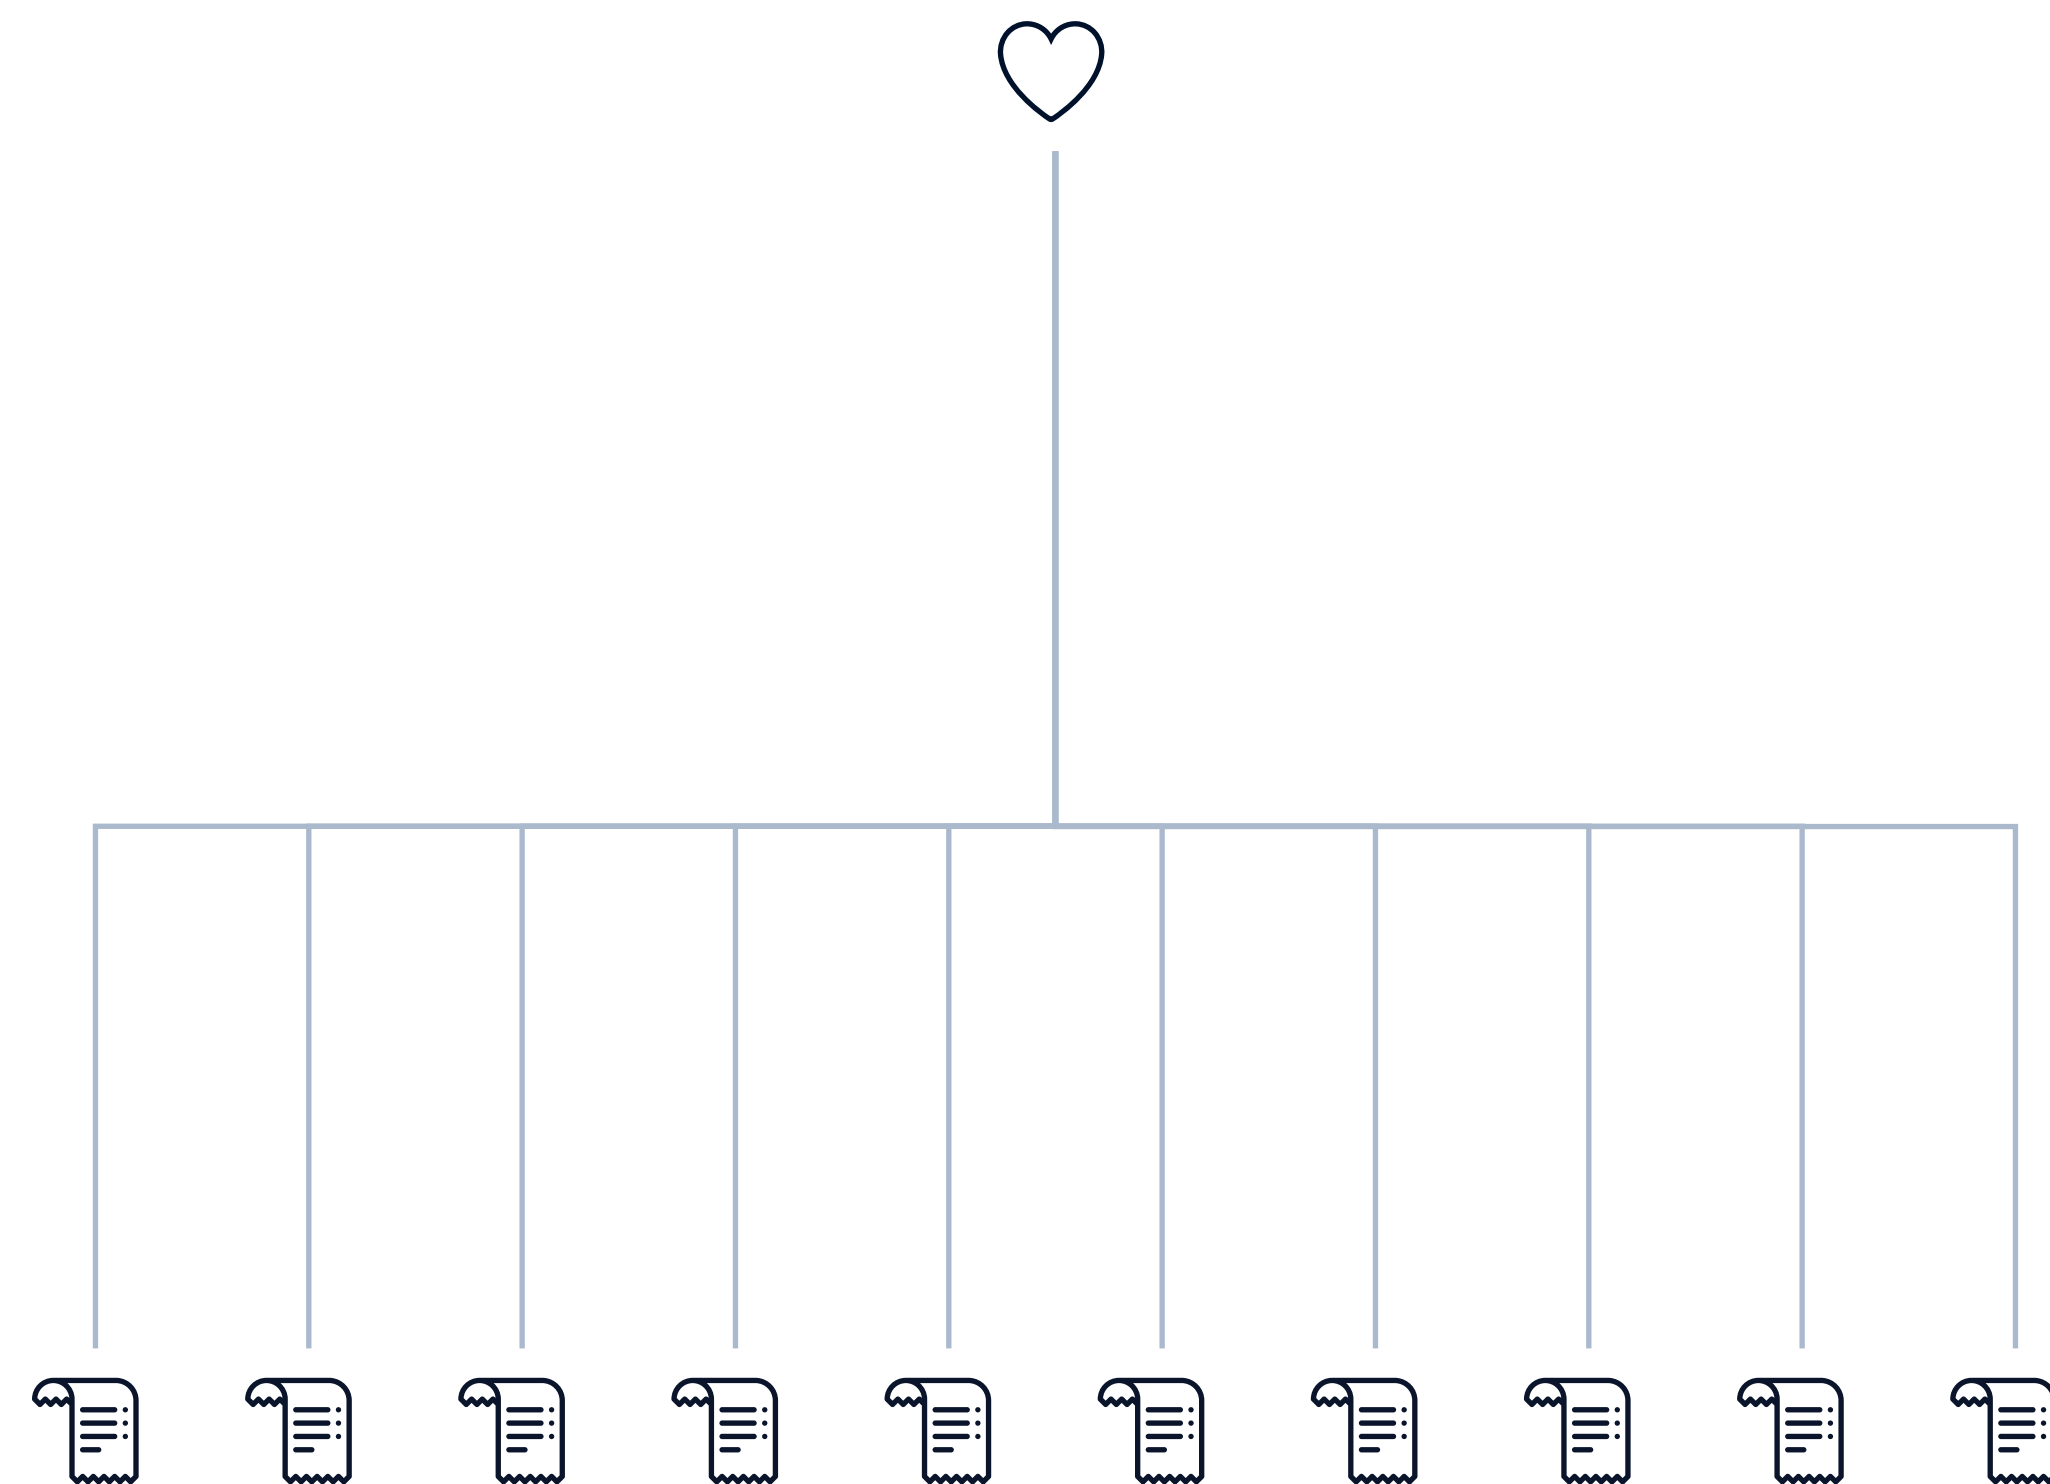

Customer insights

Link every transaction made with the same card

Customer insights

Turn your receipts
into actionable
customer data

**What insights
are you looking for?**

Engage customers in ways they want
(and didn't know they wanted)

Deliver a seamless, engaging experience wherever customers are

Purchase online,
pick up in-store

Access online
inventory in-store

Buy online,
return in-person

Order ahead in-app,
pick up in-person

Any future
journeys

Buy online, get
recognized in-person

Buy in-person, get
recognized online

Cashierless
checkouts in-person

Recognize customers
and their preferences

Any future
journeys

Customer engagement

Gather more insights while personalizing interactions

Conduct an NPS survey

Discover what customers think about your brand.

Offer emailed receipts

Save on paper and capture customers' email addresses.

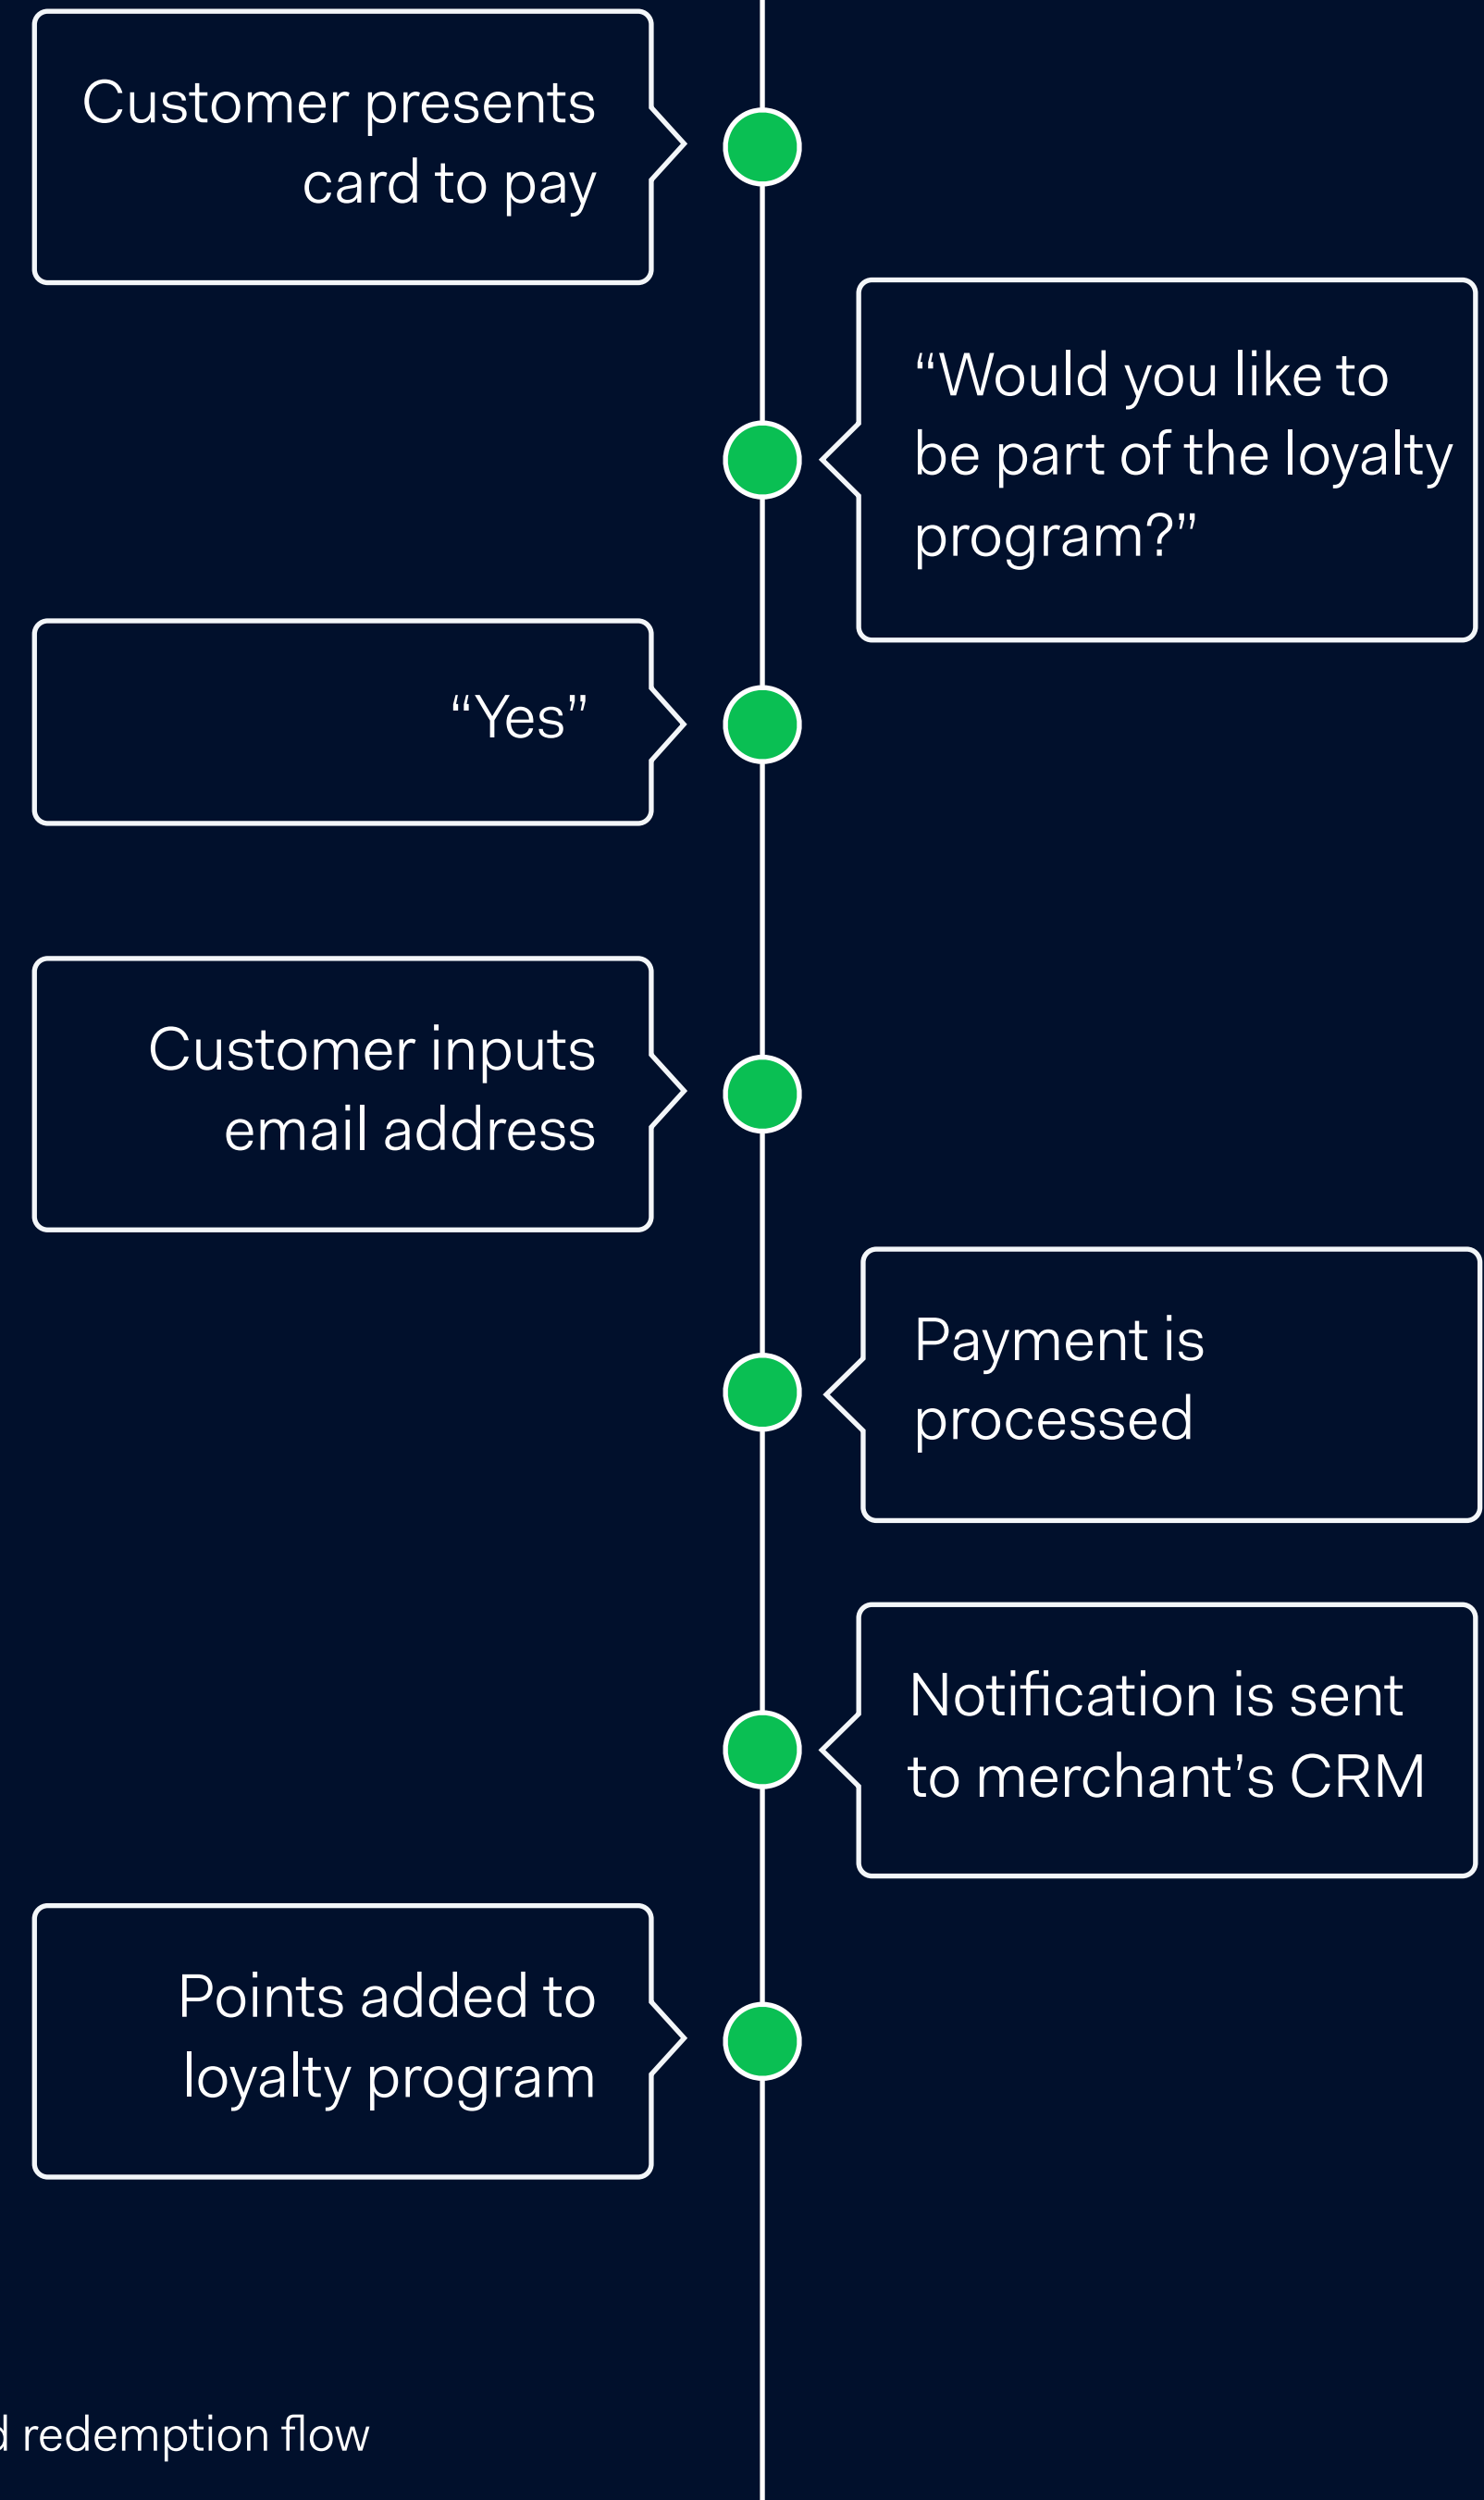

Loyalty without the cards

Link loyalty to the customer's payment card.

Customer engagement

Use tokens to engage with customers before, during, or after a transaction

Example

Loyalty sign-up and redemption flow

Pay at table

**Customers
conveniently pay, tip,
and share the cost of
a meal**
